

↓ DON'T LET THE NOISE TURN YOU DOWN

HIGHLIGHTS

- Protect PLC outputs from premature failure.
- EMC compliant installation: No noise, no headache!
- Electromagnetic Interference is suppressed or absorbed where it is generated, does not travel through the whole system!
- Achieve compliance with Field-Bus systems and safety circuits to run noise free with a proper EMC installation

Contact wearing and Electromagnetic Compatibility (EMC) problems can be very difficult to isolate and troubleshoot properly. However, Murrelektronik, market leader with over 35 years of expertise and your suppression and EMC specialist has always the right solution!

Our newest customer oriented solution:

Suppression devices for Rockwell / Allen-Bradley that fit perfectly on the contactor, offering the best suppression protection.

Get EMC today! Get suppressors from the specialist! Murrelektronik suppression: Over 35 Years of know-how at your service!

| SUPPRESSORS

Voltage	Circuit	Part Number	For contactors
24-48V AC/DC	VDR	2000-68200-4400000	100-C09 bis 100-C85
110V AC/DC	VDR	2000-68200-7400000	100-C09 bis 100-C85
230V AC/DC	VDR	2000-68200-2420000	100-C09 bis 100-C85
400V AC/DC	VDR	2000-68200-5420000	100-C09 bis 100-C85
24-48V AC/DC	RC	2000-68200-4300000	100-C09 bis 100-C85
110-230V AC/DC	RC	2000-68200-1320000	100-C09 bis 100-C85
400V AC/DC	RC	2000-68200-5320000	100-C09 bis 100-C85
12-250V DC	Diode	2000-68200-1100000	100-C09 bis 100-C85
12-250VDC	Diode	26360	100-M
24V AC/DC	VDR	26375	100-M
110-230V AC/DC	RC	21143	100-M
110-230V AC/DC	VDR	26378	100-M

Murrelektronik manufactures a variety of suppression solutions for companies such as Siemens, Schneider, Square-D, Eaton, Moeller, ABB, General Electric, Omron, Fuji, WEG, etc. Contact us today for your solution.

**Do not know where your EMI/EMC problems come from?
