MURRELEKTRONIK'S M8 CONNECTORS

M8 REDESIGN MORE MODELS, NEW DESIGN

Our M8 redesign equals innovation. We have completely redesigned all of Murrelektronik's molded M8 connectors. They have a new, modern look outside to match their technical upgrade inside.

Furthermore, we expanded our range of shielded M8 connectors significantly.

FEATURES

- Durable PUR molding
- Gold plated contacts
- Better aesthetics
- Adaptable to corrugated tubes for protection
- Hex screw with thread (SW9)

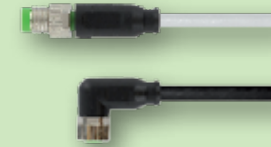

LARGE VARIETY

- Male/Female, straight/90°, 3-pole/4-pole
- Shielded and unshielded connectors
- 3 standard colors, 4 standard cable types
- Connection cables, open ended wires, T-couplers, adapters, with LED

→ EXPANDED SELECTION
→ UPGRADED TECHNOLOGY
→ MODERN DESIGN

TRANSFER

THE
ALTERNATIVE
TO STAINLESS
STEEL

LITE

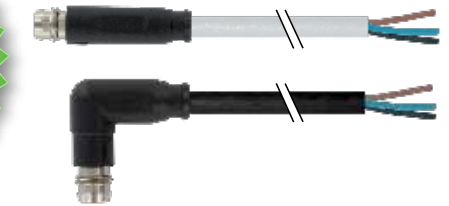

With plastic glands for the M8 connectors, Murrelektronik offers a cost-effective alternative for all applications that so far required expensive stainless steel models.

PLUGGED IN –
WHAT ELSE!

SNAP IN

Plug in – that's all! The connection principle of the M8 snap-in connectors acc. to IP65 protection is that simple. This saves time during installation and maintenance.

REAL-TIME
ETHERNET

ETHERCAT

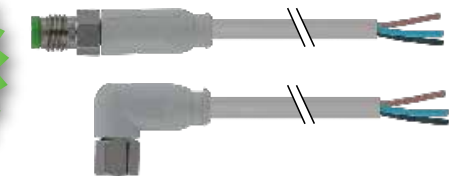

The M8 EtherCAT connectors are available with open-ended wires and with M8, M12 or RJ45 connections. Our abrasion resistant PUR EtherCAT cable, suitable for C-tracks, is very reliable in industrial environments.

FOR
THE F&B
PACKAGING
INDUSTRY

FOOD & BEVERAGE

With a stainless steel gland and gray molding, Murrelektronik's M8 Food & Beverage connectors are designed for applications in the food and beverage industry. Mold and dirt are easily spotted and the cordsets are easy to clean.

M8 MOSA – IDC INSULATION DISPLACEMENT CONNECTORS

With the M8 MOSA IDC connectors, you save time: up to 50 percent when compared to conventional screw terminals.

Other models are available by request. Visit our online shop for more information.
